Subject: Question AIA SEC. 4

AIA SEC. 4. INVENTOR'S OATH OR DECLARATION makes the following amendment to

§ 118. Filing by other than inventor

"...If the Director grants a patent on an application filed under this section by a person other than the inventor, the patent shall be granted to the real party in interest..."

Can the "real party in interest" be a corporation or entity or individual other than the inventor?

How is this different than naming the inventor and assigning the invention to a corporation or other entity?

Thank you,

Nick Georgalis
