The FY 2003 rates identified in this policy will be applied to all damage assessment and restoration case costs incurred between October 1, 2002 and September 30, 2003, using the Direct Labor Cost Base allocation methodology. For cases that have settled and for costs claims paid prior to the effective date of the fiscal year in question, the NMSP will not re-open any resolved matters for the purpose of applying the rates in this policy. For cases not settled and cost claims not paid prior to the effective date of the fiscal year in question, costs may be recalculated using the rates in this policy. The NMSP will use the FY 2003 rates for future fiscal years until year-specific rates can be developed.

Supplementary information: The subject amendment to Permit No. 1034–1685–01, issued on November 11, 2004 (69 FR 69583), is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 et seq.) and the regulations governing the taking and importing of marine mammals (50 CFR part 216). Permit No. 1034–1685–01 authorizes the permit holder to surgically implant dual satellite-linked life history transmitters; attach external satellite tags; collect blood, blubber, and fecal samples; and conduct bioelectrical impedance analysis, deuterium dilution determinations, and bladder ultrasound measurements on California sea lions (Zalophus californianus) at the Marine Mammal Center. The permit also authorizes anesthesia and adenocorticotropic hormone (ACTH) injections to measure adrenal stress levels in up to 6 California sea lions. Stress levels are measured through blood and fecal analysis.

The permit holder requests authorization to increase the number of California sea lions that receive ACTH injections to 12 animals, and inject 6 animals with a sterile saline solution as a control group. The permit holder also requests the addition of a co-investigator to the study.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement. Concurrent with the publication of this notice in the Federal Register, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.
